And, Best Rescue Stories on the inside of the cover:

Fidget - Fidget by Kris K.

Fidget lived at the Cat Welfare shelter the majority of her life. She was overlooked by potential adopters for almost a decade. All her teeth were extracted when she was a young gal suffering from stomatitis. I adopted Fidget in 2016 when she was a couple weeks away from her 11th birthday.

Mr. B - Blind is better! by Jodi F.

I was found in a dumpster when I was 3 weeks old with a severe upper respiratory infection that caused both of my eyes to rupture. My mom and dad were so worried about me! The nice lady named Gail at

Cat Welfare found a vet who would remove my eyes at a price my parents could afford and we will never forget how she helped us. Now I'm almost 2 yrs old and to be honest, I'm quite a handful. My sighted brothers and sisters don't have a chance when I chase them. This is my world and they just live in it.
